

Absolute Unveils 2021 50 Fly

The new Absolute 50 Fly offers a great combination of size, comfort and livability. The interior of this 2021 model features unimpeded views, thanks to a lack of pillars and wide windows. Plenty of seating outdoors on the versatile aft cockpit mean guests have their pick at lounging spaces. The cockpit connects to the galley, where a sofa transforms into a sun lounger.

The flybridge features a table surrounded by a sofa, a full kitchen area and a double steering position. When you take a break to anchor, relax on the bow's sunbathing area.

Inside, the 50 Fly boasts a bright, finely furnished interior. Accommodations include a full-beam master cabin with cabinets and several stowage spaces, as well as large windows for an incredible sea view. The VIP cabin has its own ensuite head that can also be accessed from the hallway. The third guest cabin has two berths and a walk-in closet, and the aft crew cabin can be used for extra guests.
