ABSOLUTE 60FLY
THE PERFECT MARRIAGE OF ITALIAN YACHT
DESIGN AND FUNCTIONALITY

BY COLLIN P. JAMIESON

Italian yacht design is the pinnacle of excellence, a noble standard to which other yachts are compared. When viewing the sleek, sophisticated lines of the Absolute 60Fly there is no doubt that this yacht exudes Italian excellence, but there is more than meets the eye. The Absolute 60Fly abounds with innovative features, leading it to stand out among competitors.

Founded in 2002, Absolute is a family owned company that has cemented its position around the globe as a premier powerboat manufacturer. Absolute's founders have over 40 years of boat building experience and are considered amongst Italy's pioneers of the modern powerboat manufacturing era. Built in their state of the art facility outside of Piacenza, Italy, Absolute's diverse lineup of yachts range from 40 to 72 feet and are built on the principles of investment, construction, worldwide serviceability, efficiency, performance, and Italian design. Absolute's dedication to these principles has led them to be recognized by industry experts in the areas of exterior design, interior layout, and innovation.

At first glance, you can't help but notice the large exterior windows that accentuate the sleek exterior lines of the 60Fly's structure. Absolute's generous use of windows provides the interior spaces with ample amounts of natural light and provides a lively interior space. When boarding on the

aft hydraulic swim platform, you are greeted by the window of the crew cabin, which could be utilized as an additional stateroom (yes, it's that nice). The cockpit provides plentiful space to entertain guests and features an adjustable couch that transforms into a sunpad, showcasing the 60Fly's diverse capabilities. If you desire additional privacy, an electrical sunshade in the cockpit can protect you from the sun and prying eyes.

Navigating to the bow is easily supported by large walkways, leading you to the ideal location to experience the sun and sea. The bow of the 60Fly has a large sunpad with three individually adjustable backrests and an additional lounge area, a rare feature to find on a yacht of this size.

The Flybridge of the 60Fly definitely makes a statement with its massive volume and its extensive amenities. When arriving on the Flybridge, a well-appointed grill, icemaker, and refrigerator greets you to confirm that good times are ahead. The additional helm station on the fly provides the perfect viewing area to navigate the seas in style. Don't worry captain! There are plenty of seats on the fly to keep you company. There is a large convertible lounge and sunpad adjacent to the helm along with an expansive dining area on the fly. Featuring an electric Bimini top and aft sun lounge area, the space is well diversified to satisfy anyone's desires.

THE PERFECT MARRIAGE OF ITALIAN YACHT DESIGN AND
FUNCTIONALITY. IT EXUDES ITALIAN EXCELLENCE AND
INNOVATION FROM EVERY ASPECT.

First impressions are everything, and when you open the salon doors of the 60Fly it definitely makes a favorable impression. You are immediately greeted by the rich aroma of fine Italian leather that leads you to observe the precious materials throughout the main salon. Abounding with Canaletto walnut wood, stainless steel, marble and ceramic, the interior of the 60Fly invites you to live the good life at sea. But don't let the precious materials distract you from the main attraction of the 60Fly's interior spaces, its expansive volume and intuitive layout.

Moving forward from the main salon, the 60Fly features a fully loaded galley with a large dining area adjacent. The main helm station showcases two large 15" Garmin GPS chart plotter units and the latest Volvo Penta IPS transmission, which allows you to operate the vessel via joystick. The ergonomic helm station has stunning visibility and a side access door, providing quick access to the bow.

With three large staterooms on board, not including the crew area, the 60Fly has ample space for your next family vacation. Due to Absolute's innovative Integrated Structural System, each stateroom was designed to promote maximum height, maximum bed sizes, and maximum window sizes. Additionally, each cabin features a well-furnished bathroom, with a full shower, and large storage spaces.

The forward VIP is large enough to be considered a second master, due to Absolute's intuitive design of positioning the queen bed at an angle. The central guest cabin features two single beds with a large window and opening portholes, a unique amenity found throughout the 60Fly. The full beam master cabin definitely has the "wow factor", boasting a king size bed, expansive windows, a side sofa lounge, and a vanity console. The generous master bathroom provides you with two sinks, another rare feature on a yacht of this size, and a large shower with a functional porthole. Overall, the interior spaces of the 60Fly are a testament to Absolute's ability to build a luxury yacht that is stylish and functional.

Innovation is in the DNA of the Absolute brand. Each of their yachts features technological and structural advances, courtesy of a strategic partnership with Volvo Penta. The 60Fly features an efficient twin Volvo Penta D11-IPS950 engine package with IPS transmission that was specifically designed with the 60Fly hull in mind. This custom tailored IPS system provides you with class leading fuel economy and the ability to select cruising speeds within 22 to 30 knots without impacting the fuel economy. Cruising speed for the 60Fly is rated at an impressive 27 knots with a max speed of 34 knots. Furthermore, Absolute states that the IPS system is 30% more efficient than traditional shaft drive motor yachts. The Absolute 60Fly is the culmination of Absolute's mission of solidifying the perfect marriage of Italian yacht design and functionality. It exudes Italian excellence and innovation from every aspect. Once on board, there is no doubt that the Absolute 60Fly is from Italy with love.
