Absolute Navetta 75

Italijanska ladjedelnica Absolute Yachts je v svoji izredno uspešni liniji Navetta na navtični razstavi v Cannesu predstavila novega zastavonošo, Navetto 75. Glede na izjemen uspeh predhodnice, Navette 73, je nadaljevanje v skladu z njihovo strategijo razvoja povsem logičen korak. Kot vsa plovila ladjedelnice Absolute ima tudi največja Navetta svoj vzdevek, The Absolute Sphere, kar očitno metaforično uteleša njihova nova pridobitev. Navetta 75 ima veliko podobnih lastnosti kot njena predhodnica, vključno s prostornim poveljniškim mostičkom, velikimi okni po celotni višini v salonu in voluminoznimi prostori pod palubo. Absolute Yachts je dodal še več novih inovativnih funkcij, ki so že vgrajene na njihovih najnovejših modelih zadnje generacije. Kokpit se je preimenoval v teraso in je, tako kot vsi novi modeli, odprt proti krmi in ponuja pogled na morje. Na zunanjih površinah se uporablja modularno pohištvo brez fiksnih strukturnih elementov, posebej zasnovano in izdelano za Absolute, kar lastniku omogoča, da razporedi sedeže glede na število gostov na krovu.

A new flagship model in the exciting Navetta range has been announced. The Italian shipyard has had great success with the Navetta range, particularly the Navetta 73 which the new model will replace. The largest boat in the shipyard, "The Absolute Sphere" is designed to expand the Navetta range. The Navetta 75 will feature many of the same attributes as its predecessor including the massively spacious flybridge, large picture-sized windows in the salon, and the high ceilings in the lower deck accommodations. Absolute Yachts has created several, new innovative features that have been appearing on their latest models. For example, the terrace cockpit is being designed with open gunwales and transparent panels towards the transom which together, increase the open visibility of the ocean. Modular furnishings with no fixed structural elements especially designed and constructed for Absolute, is used on the exterior decks which allows the owner to arrange the seating for the number of guests on board.

V notranjosti je bilo nekaj sprememb, vendar je ključno, da se je ohranil čudovit lastniški apartma na premcu, tri kabine za goste na krmi (vključno z VIP kabino čez celotno širino trupa) in spodoben prostor za posadko. Za izboljšanje pogojev med manevriranjem sta poleg dveh krmilnih konzol na voljo tretja in četrta krmilna postaja na strateških položajih za lažje upravljanje. Navetta 75 ima še dva slogovna poudarka ladjedelnice: enostavno gibanje na palubi in popolno zasebnost za lastnike in njihove goste, ki imajo svoje prostore povsem ločene od posadke.

Absolutov prestižni položaj v sektorju luksuznih jaht je letos na navtični razstavi v Cannesu potrdila nagrada 2022 World Yacht Trophies, ki jo je Navetta 75 prejela v kategoriji "najboljše notranje oblikovanje". Navetta 75, Absolutov novi paradni konj, dejansko predstavlja vse značilnosti notranjega oblikovanja znamke, kombinacijo sloga, udobja in funkcionalnosti v notranjosti, ki jo je mogoče prilagoditi glede na različne priložnosti. Kuhinja je na primer lahko neprekinjeno povezana s salonom ali ločena z navpično drsno pregrado ter ogledalom na njej. Druga značilna oblikovna lastnost je sistem stopnic in prehodov, ki posadki omogoča popolnoma diskretno delovanje, ne da bi ji bilo treba vstopiti v prostore za goste.

Do poveljniškega mostička lahko z glavne palube dostopamo po dveh ločenih stopniščih na krmi in na premcu. Do posebnega prostora za posadko na krmi je dostop iz kokpita, ne da bi pri tem motili lastnike in njihove goste. Na krmi so prostori za kapitana in posadko vsestransko uporabni in funkcionalni, v njih pa lahko namestite do tri ležišča, kopalnico in celo ločeno zasebno kuhinjo.

Edina možnost izbire pogonskega motorja IPS je enaka kot pri modelu 73, in sicer najzmogljivejši par Volvo Penta D13-IPS1350 vsak po 735 kW moči. Z variabilnim trupom je najvišja hitrost okoli 20 vozlov potovalne hitrosti.

There have been some changes to the interior but the key point is that the fabulous owner's suite in the bow has been retained with three guest cabins aft (including a full beam VIP) and decent crew space. Absolute's prestige position in the luxury yachts sector was confirmed at Cannes by the 2022 World Yacht Trophies prize, awarded to the Navetta 75 in the "Best Interior Design" category.

In fact the Navetta 75, Absolute's new flagship, presents all the brand's interior design hallmarks, a combination of style, comfort and functionality in interiors that can be modulated according to the occasion. For example, the galley can be continuous with the saloon, or separated, by means of a vertically-sliding mirror panel. Another distinctive design feature can be seen in the system of stairs and passageways that enables the crew to operate in total discretion, without having to enter guest spaces. To enhance the two steering consoles, a third and fourth mooring station are available in strategic positions for easy maneuvering. Navetta 75 comes with two other highlights of the shipyard's style: easy movement on board and ultimate privacy for the owners, their guests and their crew.

Indeed, from the main deck you can easily access the flybridge both from the aft and from the bow, thanks to two separate stairs. A dedicated crew area can be easily accessed from the cockpit, without interrupting the owners and their guests. In the stern, the captain's and crew quarters are versatile and functional, and can accommodate up to three beds, a bathroom and a private galley.

The sole IPS engine option is the same as for the 73, the most powerful Volvo Penta D13-IPS1350 pair, each with 735 kW of power. With the variable hull, the top speed is around 20 knots cruising speed.

Osnovni podatki Short specification

Dolžina / LOA:	22.82 m
Širina / Width:	5.61 m
Voda / Fresh Water Capacity:	1.110 l
Gorivo / Fuel Capacity:	4.000 l
Največje število oseb / Max Passengers Capacity:	18
Kategorija plovbe / Design Category:	B
Motor / Engines:	2 × Volvo Penta D13-IPS1350 (2 x 735 kW)
