

NOVI ABSOLUTE 50 FLY

Apsolutan komfor

Novi Absolute 50 Fly primjenjuje rješenja i koncepte tipične za najveće motorne jahte, zbog čega je svaki njegov dio apsolutno funkcionalan. Pogonski sustav IPS 600 odgovara mu savršeno, čineći ga pritom štedljivim, tihim i mirnim brodom. Unutrašnjost nije samo vrhunski funkcionalna, već i lijepa, a odiše klasičnim talijanskim stilom. Absolute 50 Fly ima tri kabine s krevetima za šest osoba, a tu je i četvrta, podjednako prikladna za još jednog gosta ili za skipera. Zahvaljujući većem broju pomičnih elemenata, prostori na Absolute 50 Fly su svestrani, pa tako čak tri odvojene zone mogu poslužiti i za pripremanje obroka, objedovanje ili sunčanje. Do kuhinje, odvojen kliznim staklenim vratima pokretanim električnim sustavom, nalazi se salon. Brod ima tri zone predviđene za sunčanje, sve tri po želji sakrivene od znatiželjnih pogleda tendom s električnim sustavom otvaranja. Do fly palube uspinje se stubama koje su dio strukture nadgrađa, a ta je paluba opremljena svime potrebnim za opuštanje, druženje i pripremanje obroka na otvorenom. Na ovoj je palubi ugodno i skiperu i kopilotu, koji ondje, kao i na unutrašnjem upravljačkom mjestu, imaju na raspolaganju podesive naslonjače. www.absoluteyachts.com

The absolute form of comfort

The Absolute 50 Fly implements concepts and solutions typical of the biggest motor yacht, making room to every single detail's functionality. The IPS-600 systems provide best performances, low consumption, silent movement and absence of vibration. Volumes and surfaces dimensions of the project show an absolute optimization of the indoor spaces, which beauty is reflected in the Italian design. The night area includes three cabins for a total of six guests. Moreover, the fourth aft cabin can host both an expert sailor and a guest. Thanks to the numerous sliding elements, the on board areas are such versatile that they can offer three spatial solutions for cooking, for lunch and sunbathing. This area is separated from the galley thanks to an electrical sliding glass. In the outdoor spaces, there are three different sunbathing areas. An electrical privacy sunshade offers protection from prying eyes. From a structural stairway, you can have access to the fly area that hosts a main sofa with dining room table, a side sofa and a further sunbathing with three single reclining backrests. The comfort marks also the space for the captain, whose driving seats (internal and fly ones) can have the double adjustable and reclining seat.
